

SolarSheat Attic Kit 1010

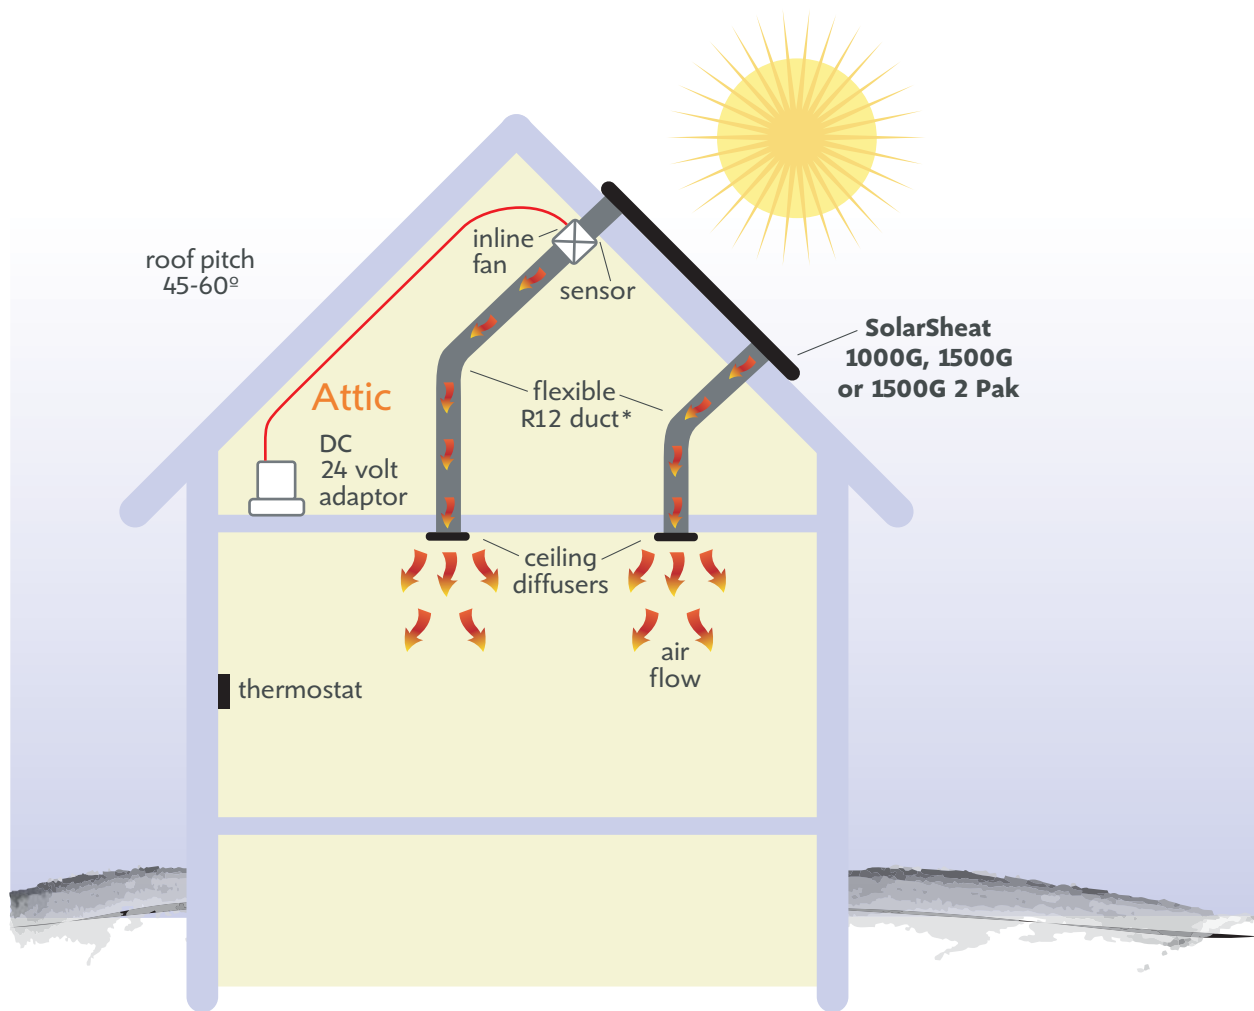

Use this kit where AC electricity is available. An inline DC fan is run with an AC/DC power adapter. The extra fan will aid in airflow where a large attic or extra duct work is required.

Parts List

- 2 ceiling diffusers
- 25' of insulated thermostat wire
- DC 5" fan with collars
- sensor 20°C / 70°F
- butt connectors
- DC 24 volt adapter
- schematic – wiring diagram

* possible to substitute insulated sheet metal duct
